AERNI

FINE WINES IDEAL STORAGE

STANDARD FORMATS FOR BORDEAUX WOODEN CASES

Aerni manufactures beautifully shaped and functional wine storage racks made of powder-coated steel. Besides the standard colour anthracite, other colours are also available on request.

Select the height and width of the wine rack from predefined modular dimensions matched to various case formats for an optimal overview in your wine cellar. Drawers for twelve or six wine bottles each are available for storing individual bottles. AERNI also offers a single-bottle display rack to showcase beautiful bottles.

CUSTOM DESIGNS FOR OTHER WINE REGIONS

AERNI wine storage racks are as diverse as the wines of the world. We produce customised racks for a wide variety of case formats as well as for single-bottle storage.

Our individual storage racks clad in fine wood, glass or stone are ideal for vinothèques and well-tended wine cellars. A wide variety of shapes and designs also allow for corner and table models. We will gladly respond to your individual requirements and suggest a suitable solution for you.
